MEMORANDUM FOR: Director of Central Intelligence  
Deputy Director of Central Intelligence  
Deputy Director for Intelligence

--EYES ONLY--

FROM: [REDACTED]  
Chief, Arms Control Intelligence Staff

25X1

SUBJECT: Update on the Compliance Decision Document [REDACTED]

25X1

1. This "fast-track" memorandum is for your information and updates a piece of correspondence on the same subject from a few days ago. [REDACTED]

25X1

2. Attached is a copy of the "final" Decision Document on the December 1985 Report to the Congress. This document is supposed to be the basic element in the President's decision package on the 23 substantive issues. [REDACTED]

25X1

3. To be honest, this set of material collectively turned out to be much better quality than I feared it would be about two-plus weeks ago. We agreed with this document on behalf of US intelligence, and on your behalf, with a few exceptions--where we took dissents of one type or another. These dissents, for the most part, are of the nature of a substantive "note"--not a policy position directly. [REDACTED]

25X1

4. Also attached is a copy of the material we sent to the NSC Staff involving SCI-level information. We did this as a courtesy because the Decision Document was held to the SECRET, non-SCI level at the NSC request. Further, this SCI-level transmittal allowed us to add a number of pieces of information at the SCI-level separate from whatever SCI-level dissents we had to take on behalf of US intelligence. [REDACTED]

25X1

25X1

5. The only <sup>now</sup> policy positions where I took a stand on behalf of US intelligence, and you, was on the issue [REDACTED]

25X1

25X1

In any case, as I indicated to you earlier, almost all of these dissents can be disowned by you, if you judge that to be necessary. I hope that is not required because we have carefully kept our attention focused on substantive materials. [REDACTED]

25X1

25X1

TOP SECRET

TOP SECRET

6. We are now engaged with the Executive Branch in creating and refining the Report to the Congress and the transmittal letter from the President. This work will be equally difficult for the next few days [redacted]

[redacted], the remaining problems in the Report, itself, will be fixed fairly easily. [redacted]

25X1  
25X1  
25X1

7. We have a special problem again this year on protecting intelligence sources and methods in the Report to the Congress, the unclassified transmittal letter from the President, and in subsequent public treatment of the various subjects. I have again this year leaned as far forward as is humanly possible to go in presenting at the SECRET, non-SCI level the basic facts and analysis on each of these subjects, except two.

25X1

8. In the data denial arena more generally, we have again this year [redacted]

25X1

-treaty

Unless you issue instructions to the contrary, I intend to hold to our position of last year for the same reasons now as then--treatment of this extremely sensitive issue in the compliance arena cannot occur in haste and without commonly agreed understanding of how any subsequent documents will be handled and protected. [redacted]

a

25X1

9. If you find major problems here after looking at the document, please let me know, and I will do what I can in private with the NSC Staff. [redacted]

25X1

10. In the meantime, if there is anything further we can do to assist you here, please call and let me know. [redacted]
